Boost your performance with our innovative new range of Tork wiper dispensers.

Tork Performance
Born to perform
Tork Performance wherever you are, whatever the task

Setting new standards in wiping, cleaning and polishing for industry, food and healthcare environments we are proud to introduce the Tork Performance range.

Tork® Performance is a new generation of dispensers born to perform. All dispensers are optimised for Tork wipers and when combined they become the perfect performance tools. They present a professional image that your customers and staff will appreciate as well as supporting the user in the task at hand. The range is designed for greater productivity, increased quality, improved hygiene, better ergonomics, improved cost-in-use and uncompromising safety. Tork Performance delivers wherever you are, whatever the task.

Dispenser for folded wipers (W4)
- Easy to wall mount and detach
- Provides hygienic protection
- One-at-a-time dispensing for controlled consumption
- Lockable

Perfect for hygiene sensitive areas, food preparation and all industrial environments.

Floor stand for large rolls (W1)
- Ergonomically designed
- Safe and reliable tear-off
- Easy load feature
- Stable construction

Suitable for all high use areas where a large capacity mobile solution is needed.

Wall stand for large rolls (W1)
- Ergonomically designed
- Safe and reliable tear-off
- Easy load feature
- Stable construction

High capacity dispenser suitable for all areas where space is at a premium and an easy-to-find fixed location is demanded.

Dispenser for large centerfeed rolls (W2)
- High capacity
- Robust and durable
- Protects the roll
- Fast and easy to access

Ideal for kitchen and food preparation environments as well as industrial environments.
Dispensers for centerfeed rolls (M2)
- Durable and robust
- Designed for multi-tasking
- Fits into tight spaces

Ideal for healthcare, food environments and washstations.

Dispenser for wiper pack rolls (W3)
A dispenser for high use areas where easy refilling is required.

Dispensers for liquid soap (S1)
These matching soap dispensers are designed for washstations in demanding environments. The arm lever version is used in areas where there is an extra high demand for hygiene, such as healthcare and food environments.

Waste bin (B1)
Combine your Tork Performance dispensers with a matching waste bin ideal for all wash stations. The waste bin can be floor or wall mounted and the optional lid provides extra hygiene in environments such as healthcare and food preparation.
We wanted to break the performance barrier
The Tork Performance dispenser range offers you superior flexibility in selecting the right wiping solution, so that your performance is never compromised.

We have meticulously examined each stage in the filling, using, and maintaining cycle. We found smarter, simpler and safer ways of facilitating each stage of the cycle to reduce maintenance to a minimum and to benefit the user’s performance.

Tork Performance dispensers and Tork wipers work together as one seamless system making them indispensable tools in securing your performance whatever your needs:
- Productivity
- Quality
- Hygiene
- Safety
- Ergonomic
- Professional image

Here you will see three dispensers illustrating and highlighting some of the functional features and advantages of the Tork Performance range.

Floor stand for large rolls (W1)
Secure grip – easy to move around
The ergonomic design and the textured handle easily allows you to move the dispenser to where you need it.

Easy and reliable tear-off
Sturdy and durable glass fibre reinforced teeth for optimal dispensing.

Intuitive and safe loading
Loading is fast, safe and simple due to the ergonomic and innovative one-piece roll bar.

Safe and stable in use
Sturdy metal construction and rubber feet assures stability while dispensing.

Always close at hand
Durable wheels allow you to conveniently transport and position the dispenser close to where you are working.
Dispenser for large centerfeed rolls (W2)

Convenient access
The side-hinged hood facilitates opening and efficient loading of the dispenser.

Easy identification
All Tork Performance dispensers come with the system name printed inside to help you select and order the correct wiper.

Impact resistant and long lasting
All Tork Performance dispensers are made of impact resistant plastic.

Protected wipers
The splash proof dispenser protects the wipers.

Dispenser for folded wipers (W4)

Two ways to open – depending on the environment
The lock on the Tork Performance dispensers can be set in two modes and can be opened with a key or with a simple push on the lock, whatever suits the dispenser environment.

High visibility
Easy to spot the dispenser when it is needed.

Easy refill check
Semi-transparent hood design on all dispensers enables a fast and convenient refill check.

Single wipe dispensing
Functionally designed feed-out for low linting and controlled consumption.

Easy cleaning and maintenance
For easy mounting and demounting the dispenser comes with a wall bracket fitting.

Robust and durable construction
Extra sturdy hinges ensure uncompromised performance and long life.

Flexible dispensing
Take as much as you need or portion control – continuous feed or single sheet dispensing.

Push on the lock or open with a key.
quality wipers for perfect performance

Matching the right wiper to the task will maximise your performance benefits.

For a perfect result, select a wiper with the ideal properties for the job at hand, such as strength, absorption, bulk, or linting. Whether it is a simple task like mopping up a spill, or more challenging ones such as applying polishing wax or cleaning a surface with solvents, we have the ideal Tork wiper to enhance your performance.

Our three refill qualities – Premium, Advanced and Universal – allow you to choose between rolls in different sizes, and folded pre-cut wipers to give you maximum flexibility.

See below to choose your ideal Tork wiper in the right quality for the job.

Tork wiper qualities

Covers your basic needs
- Dry wiping of lightly soiled surfaces
- Takes care of small spills from water to oil
- Hand wiping
- Single use

For more demanding wiping needs
- Wiping of soiled surfaces
- Lighter wet cleaning
- Remove multi-component waste in wet state
- Hand wiping
- Single use

For the highest wiping performance
- Strong and durable
- High absorption
- Saves time and money
- Repeated use

For environments and applications with special needs
- Polishing
- Cleaning
- Sensitive cleaning
- Repeated use
simple selection

Selecting the right wiper and dispenser combination for the task at hand is key to getting the best result.

To help you we have made selection easier with three simple questions designed to assess your wiping needs and find the right dispenser and wiper combination. Once the assessment is complete, contact your Tork representative to test the new Tork Performance dispensers and wipers you have selected.

Question 1 – What are the main tasks you are carrying out?
For example do you want a wiper for dry or wet wiping, or for cleaning to remove oil and grease, or for polishing tasks?

Question 2 – What is your work situation?
For example are you at a workstation where you and others need equal access to a dispenser, or do you need to move around to carry out different tasks?

Question 3 – What are your usage requirements?
For example do several people use wipers during the day or is it just one person who occasionally needs to use them?

Specialist support
In most cases the above questions will guide you to a suitable dispenser and wiper combination. For special applications we can always help you to find the right wiper from the wide range of qualities on offer. For example if you need food contact approved wipers, or wipers that withstand high temperatures, or if you need a special solution to minimise cross-contamination, we can help – just contact your local Tork representative.

Our dispensers have been optimised with Tork wipers to give you outstanding performance wherever you are, whatever the task.
industrial

Production environments have a wide variety of tasks, so a comprehensive range of supporting wiping systems is essential for the workflow and the user. The Tork Performance dispenser line, combined with Tork wipers, gives you the flexibility to meet all the performance requirements of your working environment while reducing overconsumption to ensure a low cost-in-use.

Main tasks in production

- Absorbing oil and grease
- Cleaning components using solvents
- Protection against metal parts

For your washstation we recommend:

- Soap (S1)
- Centerfeed (M2)
- Bin with lid (B1)

Case example

In the mechanical workshop, the cleaning of large parts with solvents is a common application for wiping systems. The selected wiper needs to withstand solvent, absorb oil and remove grease, whilst being sufficiently bulky to provide hand protection against edges and ridges. This high use environment often requires a large capacity solution and usually a mobile one too.

Recommended solution

Tork Performance dispenser:
- Floor stand for large rolls (W1)

Tork wiper:
- Tork Premium 530

There is a wide range of Tork dispensers and wipers that can cater for all your special applications such as cleaning tools or providing hand protection while wiping up metal parts and shavings.
healthcare

Hygiene is the number one priority in all healthcare and laboratory environments, and maintaining a high standard is a tough task with so many visitors, patients and staff coming and going throughout the day. Hand hygiene, effective surface cleaning and fast wiping of liquids and fluids needs to be properly supported to achieve the highest levels of hygiene and safety. Tork Performance dispensers provide touch-free hygienic solutions that minimise the risk of cross contamination, whilst dispensing is limited to what you need to ensure a low cost-in-use.

Main tasks in healthcare

- Absorbing spills quickly
- Cleaning surfaces and objects
- Hygienic hand drying

For your washstation we recommend:

- Soap with arm lever (S1)
- Centerfeed (M2)
- Bin with lid (B1)

Case example

In healthcare and laboratories, the major tasks are cleaning up spills, general wiping of surfaces and objects, and frequent hand drying. Dispenser systems that are designed to hygienically protect the wipers are preferred and the wiper chosen needs to be absorbent with a high wet strength.

Recommended solution

Tork Performance dispensers:
- Dispenser for folded wipers (W4)

Tork wiper:
- Tork Premium 510

There is a wide range of Tork dispensers and wipers that can cater for other special applications such as pre-cut low linting wipers for sensitive environments.
**food preparation**

In busy food preparation areas, food safety and reliable hygienic dispensing are key. Many tasks need to be completed quickly and safely, whilst fast access is vital. Dispensers must protect wipers from spills and dust, be easy to wipe down, and clean. Tork Performance dispensers and wipers will help you to maintain a safe and hygienic food preparation environment, supporting you in fulfilling your HACCP* requirements and other hygiene measures.

**Main tasks in food preparation**

- Hygienic cleaning surfaces
- Removing stubborn oil and grease
- Drying off food
- Heat resistance / heat protection

**Case example**

In food preparation environments drying off food, without linting, is a key task a wiper must cope with. The wiper needs to be tough and absorb water, oil and fats easily.

In these busy environments a touch free dispenser needs to allow easy access and let users take as much as they need without compromising hygiene or user safety.

**Recommended solution**

Tork Performance dispenser:
- Dispenser for large centerfeed rolls (W2)

Tork wiper:
- Tork Advanced 420 Performance

There is a wide range of Tork dispensers and wipers that can cater for your other needs such as protecting hands when retrieving hot food and plates from the oven, cleaning work benches and frying pans.
